

PEAR's Evaluation Services

Over the past 20 years, PEAR has developed a data system that integrates the youth, educator, and observer perspective. We now provide accessible and affordable evaluations that summarize statistical findings to augment existing PEAR assessment tools & dynamic dashboards. Utilizing this data, PEAR evaluations offer evidence to support your organization's impact and can be shared with key audiences and used for fundraising, policy change, educator professional development, and continuous program improvement.

PEAR offers three levels of evaluation services to meet your needs.

Basic Evaluation & Analysis Module (BEAM)

Building from PEAR's validated assessments, this introductory evaluation is ideal for national organizations, regional networks, curriculum-focused organizations, school districts, and out-of-school time programs that want to **assess program effectiveness across a range of areas, including youth resilience, mental health symptoms, 21st-century skills, STEM engagement and career interest**. This evaluation provides actionable insights that can be shared with key audiences to highlight program impact.

Data Sources

- Access to PEAR's data collection toolkit that includes student, educator, and observer perspectives

Deliverables

- Dynamic dashboard of all results
- Detailed narrative presentation of statistical findings
- Option to add an infographic of key findings
- **Timeframe:** The dashboard will be available after data collection, with a presentation scheduled within 90 days

Narrative Presentation Includes

- Explanation of statistical analysis performed
- Average outcome differences by overall sample and key demographics (gender, age, race)
- Visualizations (i.e., bar graphs) for main findings

Infographic Includes

- Alignment to your organization's branding
- Key statistical highlights (e.g., % of students reporting change, significant demographic differences)

Post-Evaluation Support

- Option to add additional data presentations to your key audiences
- Coaching sessions with a PEAR evaluator to help interpret and apply results

Time Commitment

- Meeting 1: Data collection and analysis planning
- Meeting 2: Results review

Pricing

- Starting at \$10,000
